

# NEW 6-PACK CONFIGURATION

**Introducing new, smaller package size options for KWIK-STIK™ and LYFO DISK® product lines!**

We are starting to phase out KWIK-STIK™ 10 Packs and LYFO DISK® vials of 10 pellets, which will then be replaced with KWIK-STIK™ 6 Packs and LYFO DISK® vials of 6 pellets. As we sell out of our current inventory of the KWIK-STIK™ 10 Packs and LYFO DISK® vials of 10 pellets for each strain, the strain will then be available in the KWIK-STIK™ 6 Pack or LYFO DISK® Vial of 6 pellets.

**KWIKSTIK™**

The new 6-pack configuration:

- Better compatibility with expiration dating and laboratory planning
- Greater inventory flexibility
- Reduced waste due to products expiring before they can be used
- Best value for ultimate cost savings

Coming January 1, 2013  
New 8-Month Minimum Shelf Life!  
More information coming soon...
